## SUMMARY

---

Software Engineer with 1+ years of experience in Web and Mobile platforms. Passionate about building scalable, efficient web and mobile applications that solve real-world problems. I thrive in collaborative environments. Beyond the technical expertise, I bring a passion for building well-documented, maintainable software. And my motto: Fast software resulted in happy users.

## EXPERIENCE

---

### Fullstack Developer at Garangan Tech (Part-Time – Hybrid)

Mei 2025 - Jul 2025

- Maintained and enhanced website functionality, developing new features using modern frameworks.
- Identified and resolved bugs, improving system stability and user experience.

### Fullstack Developer (Freelance – Remote)

Jan 2024 - Present

- Collaborated with clients to design and deliver custom web and mobile applications using Laravel and Kotlin.
